Known Children Data 2020 1
Contents 3
Important Notes 4
Data Table 5

Important Notes

1) The below data does **not** represent a forecast for school intake.
2) The table below shows the number of children living in the catchment area for each listed school who are due to start school in the next four years.
3) The information below is a snapshot as at October 2021. The number of children living in the catchment area for a school will change as families move into and out of the area.
4) The data provided is based on registered address.
5) Some schools have shared or overlapping catchment areas. The data below shows all of the children who would be considered in-catchment for that particular school, including those living in shared areas. As a result there will be some double counting. To see a total of the number of children living in an Education District please refer to the forecast sheet for that area.
6) Schools that do not use a catchment area as one of their main admission criteria are not included in the data below but are shown in a separate list at the end of this document. This mainly affects schools with a faith association who use criteria such as baptism or attendance at a particular church. Parents are advised to refer to the Information for Parents Booklet for a full list of schools and information on how to apply for a school place.
7) Many families choose to access education outside of their designated catchment area. Therefore these figures do not demonstrate the anticipate demand or represent a forecast for the schools listed. Schools may have many more children living in their catchment area than places available, but in these instances, there is often a high number of families in that area that choose to access provision within a school without a catchment area, such as a local faith school, or in a neighbouring school with a lower numbers living in catchment.
8) Some schools have shared or overlapping catchment areas. The data below shows all of the children who would be considered in-catchment for that particular school, including those living in shared areas. As a result there will be some double counting. To see a total of the number of children living in an Education District please refer to the forecast sheet for that area.

Known Children Data 2021

Data Table

School Name	Education District	Published Admission Number Sept 2022	Year of start Sept 2022	Year of start Sept 2023	Year of start Sept 2024	Year of start Sept 2025
