

**NOW
WE'RE
TALKING**
ACTING TOGETHER
TO PREVENT SUICIDE

Are you a **business** working in
Herefordshire or Worcestershire?
Are you a **HR lead** and responsible
for organisational wellbeing?

Did you know?

Mental health problems cost £1300 for every employee in the UK economy but for every £1 spent by employers on mental health interventions they get £5 back in reduced absence, presenteeism and staff turnover (Deloitte).

Suicide is the leading cause of death in England in adults below the age of 50, and 75% of all suicides are men (ONS).

On average 70% of suicides (16-64 year olds) had an occupation registered at the time of death and past research shows that some industries are at particularly high risk such as construction and agriculture (ONS).
