

WHAT IS...

A UNIVERSITY

What is a University?

A university is an institution where students study for degrees and where academic research is done. At university, you can study for an undergraduate degree, which typically lasts between three and four years and you graduate with a bachelor's degree in your chosen subject. You will need to achieve a level 3 qualification before going to university, but you can attend university at any age.

What to consider:

- > Do they run the degree that I want to do?
- > Do I want a more practical or theoretical degree?
- > Is it a campus or city-based university?
- > Is the accommodation expensive?
- > Location - large or small city/ close (or not!) to home/by the sea or inland
