

Hi there,

I'm emailing to express deepest objection to this proposal.

I have expressed my feelings previously but my concerns have deepened since.

The irrecoverable damage this will cause to an area of outstanding and important natural beauty cannot be understated.

I walk along the path of the proposed site regularly and the obvious traffic pollution along the busiest part is already tangible, this will inevitably worsen.

Several schools in the area have pupils using the footpath to get to school. This has already been deemed a route that carries danger from traffic. With increased lorries using the road I fully believe children will be put at high risk.

This site is not required and is definitely not welcomed by all local residents.

Many thanks

Alison Cooke
