

Hello

I'm emailing in my objection to the Lea Castle Quarry.

I am so passionate about this objection as a mother to four children who currently lives in a wonderful village I would be absolutely devastated if this was to be passed.

The Quarry staff will have full PPE yet our young children will be inhaling this dust daily.

We currently have 5 schools within close proximity of this proposed site which is absolutely shocking that it is even being considered.

The devastation this quarry could cause is unthinkable please listen to the people who will have to live amongst this quarry.

Kind regards,

Maddie Ridley
