

Dear Sirs,

I am sure you have very similar emails already, however I feel so strongly about the proposal that I must send my own.

I moved to Cookley in May 2023, having lived in a built-up town of Halesowen we chose to move our young family to Cookley for accessible green space and clearer air, and that's exactly what we have. The site is a huge asset to our village. As you can see from my photo's, they speak for themselves. The proposed site is a beautiful area of green belt that continues to be enjoyed by many.

I cannot believe that any human being could walk across those fields and agree that a quarry would be suited to that space. Opposite a well-known Private School and in stone throws distance of two other schools. One of which my eldest daughter attends. Let alone adjacent to someone's home! It really is Ludacris.

I plea to whoever makes the final decision not to destroy our home, a home we have grown to love and appreciate so very much.

Kind Regards
